Valencia, Spain

Dear Mr. Salis

I am enthusiastic applying for the internship your company is offering at the website of www.stepstone.it, for working in Spain

I'm a student at the University of Palermo with subject International Business Studies. My study concentrates besides economics on languages. I have chosen english and spanish. My area of proficiency in the main study is in the field of marketing and I'm going to finish my studies within the next months.

Working in a team and supporting others with their work I'm also flexible with concentrating on urgent business, meaning setting priorities in work. As you will see from my résumé I have considerable work experience.

I'm going to finish my studies in the next time and before of this I would like to do another internship in Spain. Because after that I'm going to look for a fixed job and I don't know if there will be than any possibility to work in the foreign.

I like to gather more work experience and to deep in my spanish language. The internship would help me to reach these both objectives. I would like to work in Spain because I like to learn more about the spanish way of life and I like to become secure in speaking spanish because it is difficult to speak spanish if you just learn it at the University.

It would be if you would offer me the marketing internship. I like to start with it at the 3th of October 2003 and if possible for a period of 6 months. If the proposed date don't suit you, please let me know, maybe I could arrange another period of time.

I hope to hear from you soon and if you require any further information, please do not hesitate to contact me at any time.

Yours faithfully,

Sara Calima
